

# ESG REPORT / REPORT ON GOOD ENVIRONMENTAL PRACTICES

## 1. Introduction

**IDEAL CITRUS DO BRASIL LTDA** is committed to conducting its activities in a responsible, safe, and sustainable manner, respecting current legislation and the ethical principles that guide the modern chemical industry. Our operating model seeks to generate not only economic value, but also social and environmental value, aligning our operations with best market practices and the UN Sustainable Development Goals (SDGs).

## 2. Environmental dimension

### 2.1 - Use of Natural Raw Materials

- Products with 100% natural origin (D'Limonene and Orange Essential Oil), derived from by-products of the food industry.
- Promoting the circular economy and reducing agro-industrial waste.

### 2.2 - Waste and Emissions Management

- Proper segregation of industrial and administrative waste.
- Partnership with licensed companies for proper final disposal.
- Processes with low VOC emissions, contributing to air quality.

### 2.3 - Reducing Resource Consumption

- Practices for reducing electricity and water consumption.
- Efficiency controls to avoid waste.

### 2.4 - Environmental Compliance

- Technical and regulatory documentation (SDS, COA, labels, reports) in accordance with ABNT, Anvisa, IBAMA and state agency standards.
- Valid environmental licenses and compliance with occupational health and safety standards.

## 3. Social dimension

### 3.1 - Valuing People

- Inclusive, ethical, and safe work environment.
- Respect for labor and occupational health standards.
- Regular internal training.

### 3.2 - Responsible Relationships with Clients and Partners

- Transparency in product information.
- Compliance with labeling, transportation, and storage regulations.
- Commitment to supply chains free from child or forced labor.

## 4. Governance dimension

### 4.1 - Compliance and Ethics

- Code of Business Conduct aligned with ESG principles and national standards.
- Sending the Code of Conduct to suppliers and partners.

### 4.2 Transparency and Integrity

- Transparent accounting and tax records.
- Policies to prevent fraud, money laundering, and illicit practices.
- Confidential reporting channel.

## 5. Future objectives

- Reduce electricity consumption by 10% by 2026.
- Expand waste reuse and reverse logistics.
- Strengthen partnerships with certified suppliers.
- Invest in environmental education programs for employees and the community.

## 6. Final Declaration

**IDEAL CITRUS DO BRASIL LTDA** reaffirms its commitment to sustainability, ethics, and environmental responsibility as strategic pillars for growth. Our goal is to continuously evolve, contributing positively to the environment, to people, and to the market.
